Answers .......................................................................................................................................... 9-10

1. luster
2. vent
3. earthquake
4. soil
5. lava
6. weathering
7. magma
8. fault
9. epicenter
10. volcano
11. mineral
12. crater
13. plates
14. molecule
15. property
Vocabulary: Earth Science

Write each vocabulary term in alphabetical order.

1. ______________________________
2. ______________________________
3. ______________________________
4. ______________________________
5. ______________________________
6. ______________________________
7. ______________________________
8. ______________________________
9. ______________________________
10. ______________________________
11. ______________________________
12. ______________________________
13. ______________________________
14. ______________________________
15. ______________________________
Vocabulary: Earth Science

Match each term with its definition. Write the letter that matches the definition with the term.

A. Mix of weathered rock
B. Hot, molten liquid rock
C. Point on Earth’s surface directly over the focus of an earthquake
D. Mountain that develops where magna erupts onto Earth’s surface
E. Connection between crater and magma
F. Opening of a volcano
G. Characteristic of objects
H. Solid, natural, inorganic substance
I. Hot, molten rock
J. Shaking of Earth’s crust

Vocabulary: Earth Science

Chose any ten (10) of the fifteen earth science vocabulary words and use each in a sentence. Circle each vocabulary word used.

1. __________________________________________

2. __________________________________________

3. __________________________________________

4. __________________________________________

5. __________________________________________

6. __________________________________________

7. __________________________________________

8. __________________________________________

9. __________________________________________

10. __________________________________________
Vocabulary: Earth Science

Unscramble each vocabulary word. Have fun!

1. vlaa __________________________
2. amgam __________________________
3. ovlnaco __________________________
4. salpte __________________________
5. eyoptrpr __________________________
6. kquaterehae __________________________
7. rtusle __________________________
8. tepicener __________________________
9. inwtheareg __________________________
10. amlenir __________________________
11. olecmuel __________________________
12. racter __________________________
13. isol __________________________
14. ntev __________________________
15. tfula __________________________
Vocabulary: Earth Science

Draw an illustration to represent each of the following vocabulary terms.

1. luster

2. vent

3. earthquake

4. soil

5. lava
Vocabulary: Earth Science

Draw an illustration to represent each of the following vocabulary terms.

1. weathering

2. magma

3. fault

4. epicenter

5. volcano
Vocabulary: Earth Science

Draw an illustration to represent each of the following vocabulary terms.

1. mineral
2. crater
3. plates
4. molecules
5. property

Write a riddle to represent any five of the listed earth science vocabulary terms.

Example:
I am a shaking of the Earth’s crust.
What am I?
Answer: earthquake

1. ______________________________________________________

2. ______________________________________________________

3. ______________________________________________________

4. ______________________________________________________

5. ______________________________________________________
Vocabulary: Earth Science

molecule  plates  property  soil
vent     volcano  weathering

Write a riddle to represent any five of the listed earth science vocabulary terms.

Example: I am a shaking of the Earth’s crust. What am I? Answer: earthquake

1.
